Mumbai, India | 2021-2023

BSC Information Technology  
V. G. Vaze College of Arts, Science and Commerce  
Mumbai, India | 2018-2021

### CERTIFICATIONS

The Complete 2024 Web Development Bootcamp  
2024

The Complete python bootcamp  
2022

Power Platform Fundamentals | MICROSOFT  
2022

### LANGUAGES

English | Marathi | Hindi

### EMPLOYMENT

#### Backend Developer (1+ year)

Furation Tech Solutions Pvt. Ltd. 

05.2023 – 05.2024 | Mumbai, India

- Backend development specialization with emphasis on efficient database design, validation, and seamless functionality, including payment integration and notifications.
- Ensured secure authentication and robust error handling.
- Proficiency in database management, real-time communication, clean architecture, rigorous testing, and smooth functionality implementation.

### PROJECTS

#### Agent Rider (Mobile Application):

**My role:** Backend Developer

**Techstack:** Node.js, Express.js, Typescript, PostgreSQL, Sequelize ORM, Firebase, Socket.IO

#### **My Contributions:**

- Database Management: Schema design, Model relationships.
- Data Validation: Joi for integrity and security.
- Functionality: CRUD, Filtering, Sorting, Pagination, Custom Queries.
- Feature Integration: Real-time Chat (Socket.IO), Payment Gateway (Stripe).
- User Engagement: Notifications (Firebase Cloud Messaging), Email (Firebase SES).
- Quality Assurance: Manual testing, Comprehensive test cases

#### Fantom Play (Mobile Gaming Application):

**My role:** Backend Developer

**Techstack:** Node.js, Express.js, Typescript, PostgreSQL, Prisma ORM

#### **My Contributions:**

- Database Design: Led the creation of efficient database models for optimized data storage and retrieval.
- Validation: Implemented strong data validation using Zod to ensure data integrity.
- Functionality Implementation: Developed secure wallet functionality for managing user balances and transactions, integrated Cashfree and Razorpay payments for seamless transactions, including payin and payout features with webhook support, implemented robust verification processes for various documents using Axios for Cashfree API communication, managed sensitive wallet functionalities, ensuring accurate calculation of deductions like GST and TDS within the codebase.
- Notification System: Integrated Firebase Cloud Messaging for real-time user notifications, enhancing user engagement.
- Email Communication: Utilized Firebase SES for reliable email communication, ensuring timely delivery of notifications.
- Quality Assurance: Conducted manual testing to identify and resolve issues, ensuring a smooth user experience.

#### GMS and POS (Web Application and Mobile Application):

**My role:** Backend Developer

**Techstack:** Node.js, Express.js, Typescript, MongoDB, Firebase

#### **My Contributions:**

- GMS: Led backend development for a comprehensive web and mobile application facilitating restaurant reservations and statistical data management.
- POS: Contributed to backend development for POS, an extension of GMS, focused on restaurant operational management. Managed kitchen ingredients and inventory data within MongoDB.
